

Helpsheet: Buying services for the current financial year

If you still need to purchase any services for the current financial year please follow the instructions below:

1. Log in as normal and click on the Services menu item on the blue bar.

2. Scroll down the page to find the service provider that they are interested in. Then click on the photo, the name or 'View more'. DO NOT click on 'Buy' as this will only show the new services for 2017-18.

3. On the right of the screen under Services there are a number of options. At the top is a link to buy the new year's services and at the bottom of the list is a link to the current year's services (if there are no services available from that service provider for this period no link will appear here). Click on this link.

🏠 Educational Psychology Service

Professional psychological support service for children and young people, families, schools, communities and other settings.

Summary

Gloucestershire's Educational Psychology Service is a holistic support service. The focus of our work is to:

- Raise children and young people's educational attainment so they are able to progress well in life, are socially included and are emotionally resilient
- Support the emotional well being and mental health of Gloucestershire's children and young people
- Increase the capacity of schools and other settings to educate, support and nurture all children, particularly the most vulnerable or those with particular needs
- Increase access to the curriculum for SEND children and ensure their successful engagement with their educational setting
- Increase the capacity of parents and carers to nurture their children and promote their well being, development and learning
- Support partner professionals in their work with children, young people and families

Benefits

- Close links with the Local Authority Education, Social Care and Health agencies and universities.
- Part of Gloucestershire graduated pathway with knowledge of current local and national legislation with close links with the Advisory Teaching Service
- Provision of bespoke evidence based interventions that match need (individual, small group and/or whole school) including direct therapeutic support.
- Training and support to build capacity within schools – including small group staff coaching and whole school development work.
- Access to highly qualified educational psychologists with up to date specialist expertise
